

A Practical Guide

My Mini Monsters

Create the perfect room
for your mini monster

The perfect bedroom for your mini monster!

As your child grows up, the style of their room will change and evolve to reflect their personality. Whether they are mad about sports, destined to be an entertainer or committed to saving the world they will want a stylish bedroom specially designed to suit their ideas.

Creative and Colourful

With a little imagination your mini monster's room can be decorated to suit their tastes while still complementing the rest of your home. Colour schemes can be bold and vibrant - whether it's the perfect pink for your little princess, blue for your budding sports star, tranquil green for your outdoor adventurer or a relaxing mellow yellow to create the perfect haven for study and relaxation. Alternatively white is perfect for all children and looks great when there are lots of bright pictures and toys on display.

Central Focus

Make the bed the central focus of the room with lots of comfy quilts and pillows. An enticing and comfortable bed will encourage your little one to be keen to snuggle down for a good night's sleep and wake up refreshed and ready for the day!

It is important to keep the room fun and allowing your child to be involved in the design process is the perfect way to encourage them to express their identity and individual style. Children often know exactly what they want, even at a very early age they love to do things for themselves, so find out their favourite character and colour and have fun creating a fun and unique space together!

If your little girl is mischievous and a bit of a tomboy, like our very own mini monster, Charlie, she might want to display her toys and games in a way that reflects her quirky character. Or if your little boy likes to settle down with a favourite book, like our very own George, then bookshelves will be an important feature!

Remember it's a child's room so let their toys be a feature. Cuddly bears, favourite trinkets, books and pictures adorning shelves and walls all add to the design.

Hopefully you will be able to add to the furniture range or style that you purchased for your nursery by updating a few key pieces like a full sized single bed. My Mini Monsters offers a fantastic range of single beds, some that combine fun with sleep, incorporating playhouses and canopies underneath - perfect for creating secret hideaways. Bunk beds are also good for accommodating friends and sleepovers.

These days children have a lot of high tech equipment, so it is important to plan where this will be positioned. Again, there is lots of furniture available at My Mini Monsters for storage or to create work stations so that TVs, DVDs, computers and game stations are easy to use and also complementing the design of the room.

Things our mini monsters love!

Hi I'm Willow and my favourite thing in my bedroom is my Lottie Fairy Princess canvas art which hangs on my wall - they have pictures of fairies and pink glitter! They match my bedding too! Fi Fi my monster loves our cushions - they have fairies on as well.

Mummy bought me a special chandelier as she said it would look pretty in my bedroom. It sparkles when the sun shines on it.

Hello I am George and this is the Professor. I love my stripey blanket, it's so colourful and cosy. I like to curl up in it at night and read my books - my favourite book is Harry Potter.

Hey I'm AJ and this is my monster Blink! We love our bed, it has curtains that look like a racing car and our duvet matches it. When I go to bed, I take Blink with me and we pretend we are winning the Grand Prix and the crowds are cheering!

I like to play with my race track - I especially like to play with my Dad as he isn't very good and I can beat him! I do let him win sometimes though!

Hi I'm Charlie and this is Iggy. I would much rather be outside climbing trees, but when I do have to come inside I love to go to my bunk bed. I sleep in the top one so I can go climbing - but don't tell Mum as I'm not suppose to climb on it!

Hello I am Kizzy. This is Ozone and we have dedicated our lives to saving the planet!

I like my bed, as it is a good place to sit and think or listen to my favourite band Cold play. - I especially like it as it is made from wood taken from sustainable sources so I know that the forests will be re-planted and protected!
